

Academic Acceleration and Early Entrance to Kindergarten

Approved 6.15.2015

In accordance with the belief that all children are entitled to an education commensurate with their particular needs, students who can exceed the grade-level indicators and benchmarks set forth in the standards must be afforded the opportunity and be encouraged to do so.

The School Board of Education believes that such students often require access to advanced curriculum in order to realize their potential contribution to themselves and society.

All children learn and experience success given time and opportunity, but the degree to which academic content standards are met and the time it takes to reach the standards will vary from student to student. The School Board of Education believes that all students, including advanced learners, should be challenged and supported to reach their full potential. For many advanced learners, this can best be achieved by affording them access to curriculum, learning environments, and instructional interventions more commonly provided to older peers.

This policy describes the process that shall be used for evaluating students for possible accelerated placement and identifying students who should be granted early admission to kindergarten, accelerated in one or more individual subject areas, and promoted to a higher grade level than their same-age peers.

- Referrals and Evaluation
 1. Any student residing in the district may be referred by a teacher, administrator, gifted education specialist, guidance counselor, school psychologist, or a parent or legal guardian of the student to the Director of Instruction of his or her school for evaluation for possible accelerated placement. A student may refer himself or herself or a peer through a district staff member who has knowledge of the referred child's
 2. Copies of this policy and referral forms for evaluation for possible early entrance, whole-grade acceleration, and individual subject acceleration shall be made

available to district staff and parents at each school building. The Director of Instruction (or his or her designee) shall solicit referrals of students for evaluation for possible accelerated placement annually, and ensure that all staff members he or she supervises are aware of procedures for referring students for evaluation for possible accelerated placement.

3. The Director of Instruction (or his or her designee) shall obtain written permission from the student's parent(s) or legal guardian(s) to evaluate the student for possible accelerated placement. The district shall evaluate all students who are referred for evaluation and whose parent(s) or legal guardian(s) have granted permission to evaluate the student for possible accelerated placement.
4. Children who are referred for evaluation for possible accelerated placement sixty or more days prior to the start of the school year shall be evaluated in advance of the start of the school year so that the child may be placed in the accelerated placement on the first day of school. Children who are referred for possible accelerated placement sixty or more days prior to the start of the second semester shall be evaluated for possible accelerated placement at the start of the second semester. In all other cases, evaluations of a referred child shall be scheduled at the student's Director of Instruction's discretion and placed in the accelerated setting(s) at the time recommended by the acceleration evaluation committee – if the committee determines the child should be accelerated. Pursuant to Ohio Administrative Code 3321.01, all children who will be the proper age for entrance to kindergarten or first grade by the first day of January of the school year for which admission is requested shall be evaluated upon the request of the child's parent or legal guardian. Children who will not yet be the proper age for entrance to kindergarten or first grade by the first day of January of the school year for which admission is requested shall also be evaluated for possible early admittance if referred by an educator within the district, a pre-school educator who knows the child, or pediatrician or psychologist who knows the child. Children who will not yet be the proper age for entrance to kindergarten or first grade by the first day of January of the school year for which admission is requested may also be evaluated for possible early admittance at the discretion of the Director of Instruction.
5. A parent or legal guardian of the evaluated student shall be notified in writing of the outcome of the evaluation process within 45 days of the submission of the referral to the referred student's Director of Instruction. This notification shall include instructions for appealing the outcome of the evaluation process.
6. A parent or legal guardian of the referred student may appeal in writing the decision of the evaluation committee to the School's Superintendent within thirty days of being notified of the committee's decision. The Superintendent shall review

the appeal and notify the parent or legal guardian who filed the appeal of his or her final decision within thirty days of receiving the appeal. The Superintendent's decision shall be final. However, the student may be referred and evaluated again at the next available opportunity if he or she is again referred for evaluation by an individual eligible to make referrals as described in this policy.

Acceleration Evaluation Committee

1. Composition

- The referred student's Director of Instruction (or his or her designee) shall convene an evaluation committee to determine the most appropriate available learning environment for the referred student. This committee shall be comprised of the following:
 - The Director of Instruction (or his or her designee);
 - A current teacher of the referred student (with the exception of students referred for possible early admission to kindergarten);
 - A teacher at the grade level to which the student may be accelerated;
 - A parent or legal guardian of the referred student or a representative designated by a parent or legal guardian of the referred student;
 - A gifted education coordinator or gifted intervention specialist. If a gifted coordinator or gifted intervention specialist is not available, a school psychologist or guidance counselor with expertise in the appropriate use of academic acceleration may be substituted.
- The acceleration evaluation committee shall be charged with the following responsibilities:
 - The acceleration evaluation committee shall conduct a fair and thorough evaluation of the student.
 - Students considered for whole-grade acceleration and early entrance to kindergarten shall be evaluated using an acceleration assessment process approved by the Ohio Department of Education. The committee shall consider the student's own thoughts on possible accelerated placement in its deliberations.
 - Students considered for individual subject acceleration shall be evaluated using a variety of data sources, including measures of achievement based on state academic content standards (in subjects for which the state had approved content standards) and consideration of the student's maturity and desire for accelerated placement. The committee shall consider the student's own thoughts on possible accelerated placement in its deliberations.
- The acceleration evaluation committee shall issue a written decision to the Director of Instruction and the student's parent or legal guardian based on the outcome of the evaluation process. If a consensus recommendation cannot be reached by the

committee, a decision regarding whether or not to accelerate the student will be determined by a majority vote of the committee membership.

- The acceleration evaluation committee shall develop a written acceleration plan for students who will be admitted early to kindergarten, whole-grade accelerated, or accelerated in one or more individual subject area. The parent(s) or legal guardian(s) of the student shall be provided with a copy of the written acceleration plan. The written acceleration plan shall specify:
 - placement of the student in an accelerated setting;
 - strategies to support a successful transition to the accelerated setting;
 - requirements and procedures for earning high school credit prior to entering high school (if applicable); and,
 - an appropriate transition period for accelerated placement for early entrants to kindergarten, grade-level accelerated students, and students accelerated in individual content areas.
- The acceleration evaluation committee shall designate a school staff member to ensure successful implementation of the written acceleration plan and to monitor the adjustment of the student to the accelerated setting.
- Accelerated Placement
 1. The acceleration evaluation committee shall specify an appropriate transition period for accelerated placement for early entrants to kindergarten, grade-level accelerated students, and students accelerated in individual subject areas.
 - At any time during the transition period, a parent or legal guardian of the student may request in writing that the student be withdrawn from accelerated placement. In such cases, the Director of Instruction shall remove the student without repercussions from the accelerated placement.
 - At any time during the transition period, a parent or legal guardian of the student may request in writing an alternative accelerated placement. In such cases, the Director of Instruction shall direct the acceleration committee to consider other accelerative options and issue a decision within 30 days of receiving the request from the parent or legal guardian. If the student will be placed in an accelerated setting different from that initially recommended by the acceleration evaluation committee, the student's written acceleration plan shall be revised accordingly, and a new transition period shall be specified.
 2. At the end of the transition period, the accelerated placement shall become permanent. The student's records shall be modified accordingly, and the acceleration implementation plan shall become part of the student's permanent record to facilitate continuous progress through the curriculum.
